A-TEC OPTIMA 50: HYBRID DESIGN – BEST OF BOTH WORLDS

OPTIMA 50

ONE SILENCER FOR ALL YOUR RIFLES

The Optima family is our top-shelf silencers which are in a modular design making it possible to change the two front modules to suit another calibre within the .224 - .375 range, or simply remove one to make it shorter. Extremely durable due to the hybrid design: A hardened aluminium alloy designed to handle high temperatures, and a hardened heat treated stainless steel core that will secure the silencer's lifespan to meet most shooters' needs.

This is the most efficient silencer in standard length designed for hunters and sportshooters
